

4-YEAR GRADUATION RATE AS OF AUGUST 31, 2023

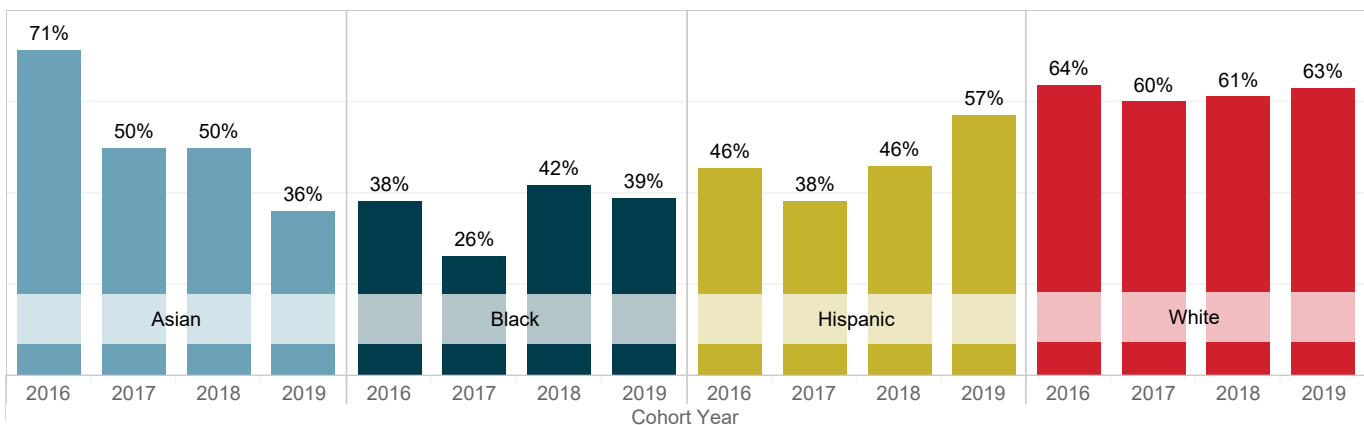

Graduation Rates

4-Year Graduation Rate by Equity Category

4-Year Graduation Rate by Racial Group

Methodology: All initial populations include the institution's first time full-time cohorts. This initial population is pulled from the October 15 census. Graduation rates are calculated by taking the number of students with an undergraduate degree conferral from Carthage College and dividing that number by the initial number of students within that year's cohort.
